A. **Writing Functional Tests – ETC**

User Story #1

Scenario: As a user I want to search cruises to The Bahamas with duration between 6 and 9 days so that I will visualize all the options to choose one. Right now, I don't care about departure port.

Steps

1. Land on https://www.carnival.com
2. Verify land on Carnival
3. Close offer modal
4. Close cookie banner
5. Click on "SAIL TO" filter
6. Click on "The Bahamas" button
7. Click on "DURATION" to filter
8. Click on "6 - 9 Days" button
9. Click on "SEARCH CRUISES"
10. Land on cruise-search page.
11. Verify land on cruise-search page.
12. Verify that results are displayed in a grid
13. Click on pricing filter
14. Verify minimum value of slider
15. Verify maximum value of slider
16. Verify that the results are sorted from cheapest to expensive.

User Story #2

Scenario: As a user I want to choose one sail and learn more about the trip, so that I will get more info about itinerary.

Steps

1. Land on https://www.carnival.com
2. Verify land on Carnival
3. Close offer modal
4. Close cookie banner
5. Click on "SAIL TO" filter
6. Click on "The Bahamas" button
7. Click on "DURATION" to filter
8. Click on "6 - 9 Days" button
9. Click on "SEARCH CRUISES"
10. Land on cruise-search page.
11. Verify land on cruise-search page.
12. Click on one trip.
13. Land on itinerary
14. Verify land on itinerary page.
15. Verify how many days the itinerary has.
16. Start for the first day to the last day with the next three steps.

17. Locate day
18. Click on "learn more" about this day
19. Verify additional information about this day.
20. Verify "BOOK NOW" button is placed into the page.

User Story #3

Scenario: As a user I want to go to Booking page from header after a selection on the search results, so that I will access an application to setup my trip.

1. Land on https://www.carnival.com
2. Verify land on Carnival
3. Close offer modal
4. Close cookie banner
5. Click on "SAIL TO" filter
6. Click on "The Bahamas" button
7. Click on "DURATION" to filter
